Dear Mr. Evans:

This letter is in response for your requests for clarification of review questions, both dated June 11, 1997.

July Quarterly (4/1/96) and October Quarterly (7/1/96-9/30/96)
Reports

California 2000 is a volunteer organization. In terms of administrative expenses, we have no office, telephones, rent, utilities or office equipment. I serve as a professional treasurer to over 15 candidates and political action committees based in California, and the value of my services never exceed \$200 in a calendar year. At the time that such services or expenses exceed the limit, they will appear on the report as required.

30 Day Post General Report (10/1/96-11/25/96)

The explanation of administrative expenses requested for this period is the same as above.

Attached is an amended Report of Receipts and Disbursements and Schedule B to show that the donations made to the following committees were disbursed to those committees to help retire their debts for the periods designated: Seastrand '96, Sybert for Congress, Wilde for Congress, and Frank Riggs for Congress. As the money was disbursed on the dates shown, Line 23 of the Detailed Summary page correctly shows the total of \$13,750. I have removed the Redesignation lines having used the term incorrectly.

Thank you for your patience and help in answering my questions and amending this report. If you have any further questions, please feel free to call me at (909)948-2446.

Sincerely,

Ravelle Lyn Greene
Treasurer
California 2000
